Your Extraordinary Why: Living a Successful Life of Significance

How many times in life do we challenge ourselves, and our businesses, with lofty goals, only to discover that their achievement ultimately fails to satisfy? When articulating a vision, setting goals and choosing where to invest our time, do we think deeply enough about:

- Who we are?
- What we're passionate about?
- What we, and our companies, are uniquely gifted to accomplish?
- Why any of these things really matter in the first place?

Participants in this workshop begin by identifying what truly matters most to them, both professionally and personally. You will be led on a journey of deep reflection by Vistage speaker Brett Pyle to clarify the all-important drivers behind those priorities - the "why" behind the "what" - to gain insight about your life and corporate purpose

You will also experience how a Vistage Private Advisory Board, led by Vistage Chairs Gail Schaper-Gordon and Stephen Elson, can help you evaluate opportunities, gain new perspectives and discover a renewed sense of direction.
